

Subject: Product Discontinuation Notice

June 1, 2026

Dear Valued Customer,

RF Industries will be discontinuing the products listed here on October 31, 2026. RF Industries will not manufacture or stock these products after the date of discontinuation. RF Industries is now offering a last-time buy on the remaining stock of these products while supplies last. In certain instances, RF Industries may be unable to manufacture additional units beyond its existing inventory during this notice period. In most cases, RF Industries recommends a developed and released alternate product to replace the discontinued product.

RF Industries will continue to honor the warranty on discontinued products. The warranty for Microlab Passive products extends up to three years, while RFI branded passive components & Microlab Active products are covered for one year from the date of sale. This is subject to the terms specified in any applicable contracts.

Please reach out to rfi@rfindustries.com for any questions or concerns.

Sincerely,

The RF Industries Team
