- ◆ Subrack depth of 9.7 inches
- ◆ Compatible with MCC100-x01 Filter Cards
- ◆ Front Access to Filter Cards for ease of installation
- ◆ Compact Aesthetic design
- ◆ Blank faceplate available for unused slots

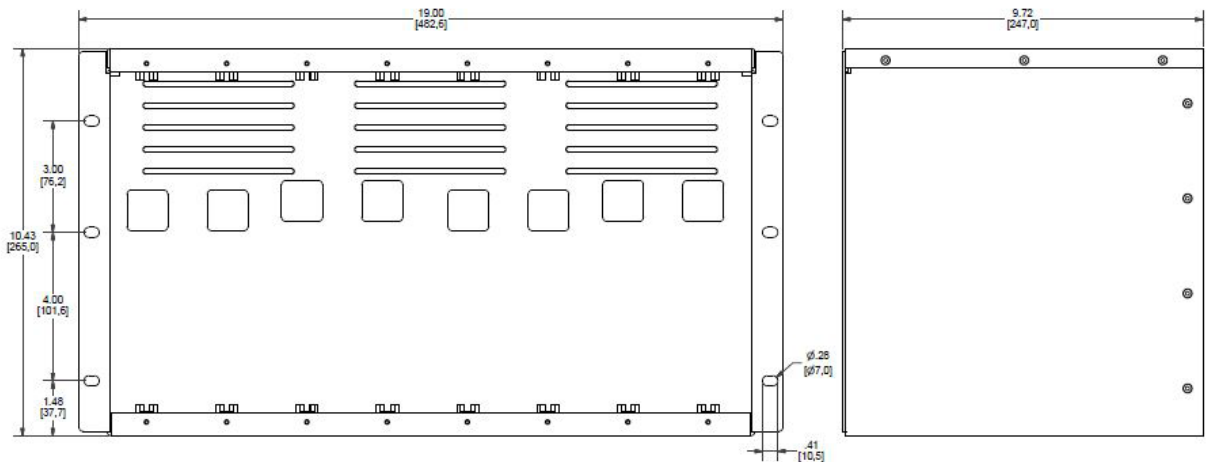

MCC100

The MCC100 Subrack is compact 6RU rackmount chassis. It has 8 slots for Microlab's MCC100-x01 series filter cards. The subrack has been designed for easy installation of the filters cards on the front. It has pass through holes for output ports of modular filters at the back. Single subrack can be populated with various combinations of the MCC100-x01 to achieve desired neutral host configuration. For unused slots in the subrack, MCC100-A03 blank faceplates can be used.
