

## Product Change Notice

**Date of Issue:** January 19, 2026

**Manufacturer Name:** Microlab

**Title of Change:** TA-2MD – Product Specification Change

**Type of Change:** Electrical Operation & Mechanical Dimensions

**Change Description** The TA-2MD resistive termination has been enhanced with improved VSWR performance across its full operating frequency range of DC–6.0 GHz. The temperature rating has also been expanded to –40 °C to +65 °C. In addition, the mechanical design has been updated with the addition of a finned heat sink to further improve thermal management.

**Reason for Change:** These improvements are designed to expand the product’s compatibility across a broader array of applications, including the latest 5G networks.

**Transition Date:** February 10, 2026

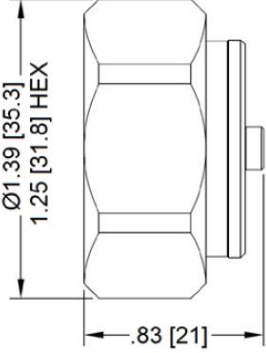

**Manufacturer Contact:** [sales@microlabtech.com](mailto:sales@microlabtech.com)

**Affected Products:**

Part Number	Product Description
TA-2MD	Resistive Termination DC-6GHz, 2W 7-16(m) Indoor
