

- ◆ 4RU wall-mount rack options for 19" equipment
- ◆ Mount flush to a wall as a space-saving alternative to full racks
- ◆ Two form factors: Fully enclosed vented cabinet or open 2-post shelf bracket frame
- ◆ Compatible with MCC300-50x filter cards and CM-141E-1R, CM-680E-1R, and CM-680E-2R combiners.
- ◆ Outdoor rated construction

MCC300-VER-WM04

MCC300-SHF-WM04

Both racks flush-mount 19" equipment to a wall in a 4RU footprint, sized for MCC300-50x series filter cards and similar rack-mount gear. MCC300-VER-WM04 is a fully enclosed, vented cabinet with adjustable-depth rails, and removable bottom panel with cable access ports. MCC300-SHF-WM04 is an open 2-post bracket frame for installs that don't need an enclosure, and ships with wall-mounting hardware included.

The MCC300-VER-WM04 gives you 8RU of rack space (4RU on the top and 4RU on the bottom), enough for a three- or four-WSP 2x2 MIMO setup. The MCC300-SHF-WM04 provides 4RU, sized for a three-WSP 2x2 MIMO setup. Blank face-plates are available to cover any unused slots in the vertical rack.

Specification	MCC300-VER-WM04	MCC300-SHF-WM04
Frame Type	Enclosed, vented cabinet	Open, 2-post shelf bracket
Rack Capacity	Top: 4RU / Bottom: 4RU	4RU
